Dare to be different

ABOUT US

We are proud to introduce the "CURVE RIBBON" product series, a project that brings together our passions and expertise. Matthijs Wateler, a dedicated interior designer with a sharp eye for the harmony between form and function, has shaped the aesthetics and organic flows of CURVE.

Our goal is to create spaces that are both visually stunning and functional, seamlessly integrating the beauty of nature. Alain van Dijk, as an LED Specialist, has contributed to the sustainability of CURVE.

Sustainability is a core value in our design, and Alain's expertise has ensured innovative LED solutions that make our projects both environmentally friendly and energy-efficient.

With CURVE DESIGN, we aim to embrace and integrate the elegance of nature into everyday spaces, and we are excited to share more about our projects and designs with you soon.Stay tuned, as there is much more exciting news to come!

Warm regards,

Matthijs Wateler, Interior Designer
LED Specialist, Alain van Dijk

CURVE

RIBBON

Innovative Design:

The CURVE Ribbon Series transforms traditional lighting solutions by using a fabric belt with integrated conductive wires. This allows for a sleek and modern aesthetic that seamlessly blends into any interior.
Versatile Functionality:
Whether you want to illuminate your space with stylish lamps or add a touch of greenery, the CURVE Ribbon Series offers endless possibilities. The belt can hold various lighting fixtures and plant holders, providing a flexible and customizable design solution.

Eco-Friendly and Elegant:
Our commitment to sustainability shines through with the CURVE Ribbon Series. The innovative use of fabric webbing and energy-efficient LED lighting ensures an eco-friendly approach without compromising on elegance and style. Transform your living or working space with the CURVE
Ribbon Series, and explore the harmonious blend of form, function, and nature.
